SUMMARY

Game Developer with expertise in Unity, and backend development, with a passion for creating immersive gaming experiences. Proficient in C# with hands on experience in game physics, AI behavior, and CI/CD pipelines.

EXPERIENCE

TheSundayGames | Unity Game Developer   **Jan 2025 - Present**

- Working on hyper-casual mobile games with a focus on Match-3, Sorting, and other satisfying mechanics.

ArrowOS | Founder & Lead Developer | github.com/ArrowOS   **2018 - 2022**

- Developed a performance optimized Android OS firmware used across multiple devices.
- Managed full-stack development, CI pipeline setup, and backend infrastructure.
- Led code reviews, debugging, and developer mentoring, fostering a strong team environment.

PROJECTS

Kaine - Souls like combat game 🔗

- Developed weapon based combat mechanics (attack, block, dodge) with third-person character controls.
- Implemented runtime weapon animation swapping using animator override controllers.
- Designed a state machine for managing character behavior and transitions.
- Led a development team to ensure gameplay aligned with project goals.

Additional Projects On Portfolio : Game projects

EDUCATION

BSc (Hons) in Computer Science and Game Development   **2021 - 2025**
ICAT Design and Media College
Cumulative GPA: 8.0

ADDITIONAL INFORMATION
